

Camp Parks and SunCal break ground.

On March 6, Camp Parks, SunCal and the City of Dublin conducted a groundbreaking ceremony to commemorate the start of construction for the new Access Control Point or Main Gate.

Participants of the Shovel Ceremony was the Chief Executive Officer of United States Army Reserve Mr. Addison "Tad" Davis IV, City of Dublin Councilmember and Vice Mayor Hon. Don Biddle, Acquisition & Entitlements Officer for the SunCal Company Mr. Joe Guerra and Camp Parks Garrison Commander Lt. Col David James.

The new ACP will include a new Main Gate, an Administration/Police Department Building, a Visitor Center and Mail Room.

This construction is part of the overall exchange agreement between Camp Parks, SunCal and the City of Dublin. Parks deeded one hundred eighty acres of land to SunCal for the construction of six facilities to be completed in the next few years.
